

Herzi and Heidi a fans guide!

Following her great success's at Stadl Paura many people have asked Ulla: 'which horse is Herzi (Herzruf's Erbe) and which one is Heidi (Wakana)?'

They do look rather alike as are both striking chestnuts with white socks. So in order to help we have produced

'Stall Salzgeber's eight ways to tell the difference'

1. Heidi has a brown spot on the end of her nose
2. Herzi has a pointed bum and Heidi a round one.
3. Herzi has stripey feet and Heidi has black feet.
4. Heidi wears her socks higher than Herzi.
5. Heidi has a broad white blaze and Herzi a fine one.
6. Herzi always looks surprised, Heidi always looks content.
7. Herzi is bigger so Ulla's legs look even longer on Heidi!
8. If you are still not sure Herzi is a boy and Heidi is a girl. So look underneath and you will know for sure!!

Now there is no need to wonder anymore. Just take this little guide to competitions with you and you can't go wrong'

Always happy to help!!
